Note

No D. O. letter was sent to the Senior Surgeon on 13.4.1903 the reply is awaited.

In the meanwhile the Senior Surgeon has forwarded for the sanction of Government the proposals contained in the following two letters received by him from the Senior Surgeon in charge of the Victoria Hospital.

1. In one letter No 1560 dy 15.3.03, the Surgeon in charge has applied for sanction to an estimate for Rs 8800/ received from Messrs. Mansfield Sons for a 2 No Gas holder and a 3 HP producer to be fixed in the Victoria

[continues in the next page]

Victoria Hospital + Rs 100/- for necessary foundation — in all Rs 8900 Rs. 8900/-.

2. In another letter, the same Officer wants sanction to get the following works done in the said Hospital.

X (a) Laying out Gas pipe Connection to the Nurses' & quarters which are nearing Completion

(b) Constructing a 2nd Gas holder and 3 stoves with retort

I t thinks (b) is the same as I above is not known.

(c) Repairs & required for the Gas making apparatus

(d) Constructing a Laundry and a house for Water Dynamo.

But no estimate shewing the probable Cost of the above works has been sent.

F

20. When with his letter No 5855 of the 17th October, 1902, the Chief Engr had submitted for sanction an estimate for Rs: 1768/- for providing Gas lights for the Nurses' quarters &c, the Govt did not sanction the estimate for want of provision in the Med Budget. Please see paper S. No 6 with slip A.

23. This is an urgent item and I am of opinion that a substantial grant should be sanctioned. The amount involved is I believe Rs: 25800 (Vide Statement C ~~attached~~ in the Medical Budget file) - I have satisfied myself by a personal inspection that the abolished - item is perfectly reasonable - item in connection with the Medical Budget - and I hope (suggested that) it should be brought up at the time of the Provincial Budget - discussion. I am not sure that it can be brought up - May I invite the kind attention of the Financial Commissioner to my recommendation for a liberal sanction - I mean that I can under the above circumstances - 24/8/03 -

Cannot Laundry gas wait? also the gas connection to Nurses Quarters, Mr II's installation costs nearly 2½ lacs more than estimated. Other items of expenditure are new. This requires consideration. New improvements are urgently required by Col Smyth for the Victoria Hospital - there are (1) a new gas generator (2) and a new gas holder costing about 9000£. A new steam-plant must maybe sanctioned - both the Committees are agreeable -

Col Smyth is trying what he calls a "gaser". Mansfield Brothers are doing it under the supervision of Mr Whitby and if the experiment succeeds which he will report he wants to put it on permanently for heating the hot-water towards and this will cost another 4200£. This will only be ordered if the experiment succeeds. This Col Smyth explained to me in person - & sanction may be kindly accorded for this also.

Sir,

With regard to this office No. G.466 of 11th June 03, forwarding Memo No. 2033 of 5th June 03, from the Surgeon in ch: Victoria Hospl giving cover to docket No. 2730/1053 of 5th idem, from the Executive Engineer Bangalore Division, I have the honor to request the favour of the early orders of Government on the subject- especially as regards the extension of the gas installation and the construction of a new generator and receiver. Without the latter great inconvenience is being felt. The main object of getting gas instead of electric light for the Victoria Hospital was, to secure a cheap and convenient means of supplying hot water over the hospital, and a means of cooking special articles of diet quickly and cleanly in the Nurses' ward-kitchens.

The installation already laid on, barely sufficient for lighting the wards already open, and of course leaves nothing over for the hot water scheme-without which the working of the hospital is carried out in an inconvenient & thoroughly

kucha

kucha manner (no English word conveys the proper meaning- a Combination of slovenliness and inefficiency)

I request therefore that Government will be pleased at least to expedite their orders sanctioning the addition to the gas producing power of the gas installation so that the work of fitting up the hot water system may come within the range of practical politics.
